

At the middle school:

The teachers have devoted Wednesday's Bobcat Time during the first 8 weeks of school to reviewing the 8 Keys of Excellence with lessons from the program. From November through the remainder of the year, the lessons during Bobcat Time will be devoted to the Quantum Self curriculum. This program will review skills the students were introduced to during their Super Camp experience last spring. Five of the key skills that this program will focus on are: evaluating and stepping out of their comfort zones; maximizing your personal power through taking responsibility; learning communication tools to improve relationships; exploring ways to experience life beyond labels; and learning effective ways to set and achieve goals. Additionally, teachers utilize High Impact instructional strategies in the classroom.

QL Education is part of Quantum Learning Network which also produces SuperCamp, a leading academic summer program that applies the same brain-based methods taught in our QL Education programs. Quantum Learning Network is dedicated to partnering with educators and parents to improve the present and future lives of children.

All students grade 6-12 attended a SuperCamp experience at the Community Center last March.

INTEGRITY – Match behavior with values

Demonstrate your positive personal values in all you do and say. Be sincere and real.

FAILURE LEADS TO SUCCESS – Learn from mistakes

View failures as feedback that provides you with the information you need to learn, grow, and succeed.

SPEAK WITH GOOD PURPOSE – Speak honestly and kindly

Think before you speak. Make sure your Intention is positive and your words are sincere.

THIS IS IT! – Make the most of every moment

Focus your attention on the present moment. Keep a positive attitude.

COMMITMENT – Make your dreams happen

Take positive action. Follow your vision without wavering.

OWNERSHIP – Take responsibility for actions

Be responsible for your thoughts, feelings, words, and actions. "Own" the choices you make and the results that follow.

FLEXIBILITY – Be willing to do things differently

Recognize what's not working and be willing to change what you're doing to achieve your goal.

BALANCE – Live your best life

Be mindful of self and others while focusing on what's meaningful and important in your life. Inner happiness and fulfillment come when your mind, body, and emotions are nurtured by the choices you make.

Quantum Learning in Weston #7

Quantum Learning Education provides high-quality learning experiences that empower teachers, inspire leaders, and motivate students.

Oct. 2014

Quantum Learning in Upton Schools

Quantum Learning Education is a comprehensive model that builds character and promotes college- and career- readiness skills in students. We are a team of educators who are passionate about students' achievement in school and their success in life.

Quantum Learning's research-based system for educational transformation

...

- ◆ creates and sustains dynamic leadership at the administrative, teacher and student levels,
- ◆ develops district-wide school cultures where all persons practice a common language of excellence,
- ◆ stimulates enthusiasm, engagement and personal responsibility for learning,
- ◆ instills a positive attitude toward citizenship and personal standards, and
- ◆ accelerates high levels of individual scholarship and team achievement that the entire community celebrates and enjoys.

In brief, Quantum Learning enhances ...

- ◆ teachers' gifts to inspire,
- ◆ administrators' ability to lead,
- ◆ students' desire to learn, and
- ◆ parents' confidence in how to guide their children for school success.

At the Elementary:

K-2 is working on helping the kids understand above the line, on the line, and below the line behavior. They are trying to show the students how to live above the line and stay there. They incorporate quantum learning into their everyday activities including songs, praise, lessons on each key, and brain breaks.

Grades 3-5 incorporate quantum learning into their everyday activities. They open with songs, transition with brain breaks, and praise with celebrations.

As a school we use quantum learning as a common language to carry over from the classroom to the playground to out of school activities. The students understand what is being asked of them by any of the teachers in the school.

At the High School:

The 8 Keys are posted in every room to keep the concepts fresh and applicable. All the teachers are discussing one of the 8 Keys each month and adding it to their content and expectations for students.

Mrs. Finn says "I start each class with music and dance/ stretching/activating both sides of the brain with movement. When I test students I am usually playing low baroque music in the background. In my lessons I use callbacks and praise to keep students attentive and to validate their efforts. There are QL posters throughout the room along with the 8 Keys. I incorporate the 8 Keys into the content and the daily routine."
